

Bee City USA - Bell Buckle

Report on 2020

Pollinator Habitat Creation & Enhancement

A pollinator garden was created downtown in Bell Buckle of approximately 80 square feet. A bee mural was painted on the wall behind the garden.

Education & Outreach

bee friendly trees were handed out to residents free of charge. Pollinator seed bombs were given to residents of Bell Buckle, Flower bulbs were given to residents to plant. Volunteers worked in Bell Buckle park cleaning up around flowering beds and pulling weeds. No large public events took place due to covid.

Policies & Practices

Bell Buckle has eliminated the use of pesticides designated harmful to bees and other insects. Instead, vinegar is used to eliminate weeds in walkways.
